Or monotonous?

The Czech design brand, Bomma, unveils its new collection of crystal lighting: *Lens*. Light refracted through a lens is the fundamental principle of optics.

Here, two lenses harmoniously encapsulate their interior source, playing a symphony of lights. Classic clear crystal is offset by a single color that highlights its refraction. A hypnotic design, asking only unique composition and arrangement. It has great potential for use in larger projects. Delicate lens-shaped objects may be lavishly multiplied and bring a festive atmosphere to any interior.
